SUMMARY

Data-driven engineer with hands-on analytics experience: 98% score in a Data Analytics certification (Python, Pandas, SQL, Power BI, Tableau) and production data work at Astra and YES Bank, including query optimization, PostgreSQL/Supabase data modeling, and stakeholder reporting on a platform handling 20,000+ daily trades. Built an end-to-end ML forecasting pipeline with real data ingestion, feature engineering, and model evaluation. IIT Madras Global Hyperloop DesignX winner; Flipkart GRiD 7.0 national semifinalist.

EXPERIENCE

- Astra** Sep 2026 – Present
Founding Engineer Bengaluru, India (On-site)
- Designs and queries PostgreSQL (Supabase) data models, including Row-Level Security and database views, for a career-prep platform's job/internship discovery, AI analysers, and recruiter-tooling surfaces; designed a multi-tenant data model for a new B2B recruiter product.
- YES Securities (YES Bank)** Jan 2026 – Aug 2026
Full Stack Developer Intern Bengaluru, India
- Diagnosed N+1 query bottlenecks and redesigned MongoDB schemas, improving data query performance ~35% to ensure accurate, reliable data for downstream reporting on a platform processing 20,000+ daily trades.
 - Built CSV/Excel reporting dashboards for non-technical stakeholders, translating raw operational data into accurate, decision-ready reports.

PROJECTS

- Hybrid Stock Price Prediction System** | GitHub Jan 2026 – Apr 2026
- Built ETL pipelines ingesting and cleaning OHLCV market data and financial news for feature engineering; trained and evaluated an ensemble forecasting model (LSTM + LightGBM + FinBERT sentiment), cutting MAE ~18% vs single-model baselines. Served predictions through a REST API to a live dashboard.
- CityFlow: Real-Time 3D City Analytics Platform** | GitHub Feb 2026 – Apr 2026
- Built a live analytics dashboard tracking 4 KPIs across 5 demand variables, modeling urban logistics data in real time.

EDUCATION

- Vellore Institute of Technology** 2022 – 2026
B.Tech, Computer Science & Engineering Vellore, Tamil Nadu, India

ACHIEVEMENTS

- Winner: Global Hyperloop Competition (Asia's First), IIT Madras** 2025
- AI & Software Lead, Team Levitate (VIT): built real-time 3D pod simulations and hardware telemetry pipelines at sub-50ms refresh; team won the DesignX trophy and 5 category awards among 15+ international teams.
- National Semifinalist: Flipkart GRiD 7.0** 2025

CERTIFICATIONS

- Data Analytics – GeeksforGeeks**, 2026 · 98% score · Python, Pandas, NumPy, SQL, Power BI, Tableau
- Deloitte – Data Analytics – Job Simulation (Forage)**, 2025 · forensic technology, data analysis, business insights
- McKinsey Forward Program** – McKinsey & Company, 2026

SKILLS

- Analytics & BI:** SQL, Python (Pandas, NumPy), Power BI, Tableau, Excel, Data Visualization
- Data Engineering:** ETL Pipelines, PostgreSQL, Supabase, MongoDB, Schema Design, Query Optimization
- Modeling:** Machine Learning, Forecasting, Feature Engineering, Model Evaluation
- Tools & Practices:** Git, REST APIs, Agile, Data Structures & Algorithms
