SUMMARY

Computer Science engineer combining hands-on technical delivery with business-facing product thinking: at Astra, contributes to product ideation and specs for a new recruiter-facing B2B area (proof-of-work project ranking, verified skill records, unified portfolio) alongside building it end to end. Coordinated with compliance and risk stakeholders and shipped production features at YES Bank, and led the software team to a DesignX trophy at the IIT Madras Global Hyperloop Competition, competing against 15+ international teams. Certifications from Deloitte and McKinsey in analytics and structured problem-solving. National semifinalist, Flipkart GRiD 7.0.

EXPERIENCE

Astra ☐

Founding Engineer

Sep 2026 – Present

Bengaluru, India (On-site)

- Contributes to product ideation and specs for a new recruiter-facing B2B area (proof-of-work project ranking, verified skill records, unified portfolio), while building it end to end (UI through data model) and translating business requirements into a working technical model.

YES Securities (YES Bank)

Full Stack Developer Intern

Jan 2026 – Aug 2026

Bengaluru, India

- Coordinated directly with compliance and risk stakeholders to translate business requirements into shipped features on a platform processing 20,000+ daily trades, cutting API latency ~25% and query time ~35%.

PROJECTS

CodeGraph: GraphRAG Memory Layer for AI Coding Agents | GitHub

2026 – Present

- Built a retrieval system cutting AI agent context usage 9.6x, spanning data modeling, parsing infrastructure, and a 9-tool API surface.

Hybrid Stock Price Prediction System | GitHub

Jan 2026 – Apr 2026

- Led end-to-end delivery of a forecasting system (data pipelines, ML ensemble, API, dashboard), cutting prediction error ~18% vs baseline; scoped and built independently from data to deployment.

EDUCATION

Vellore Institute of Technology

B.Tech, Computer Science & Engineering

2022 – 2026

Vellore, Tamil Nadu, India

ACHIEVEMENTS

Winner: Global Hyperloop Competition (Asia's First), IIT Madras

2025

- AI & Software Lead, Team Levitate (VIT): led the software workstream within a cross-functional engineering team, delivering real-time telemetry systems under competition deadlines; team won the DesignX trophy and 5 category awards competing against 15+ international teams.

National Semifinalist: Flipkart GRiD 7.0

2025

CERTIFICATIONS

Deloitte – Data Analytics – Job Simulation (Forage), 2025 · forensic technology, data analysis, business insights

McKinsey Forward Program – McKinsey & Company, 2026 · problem-solving, digital fluency, leadership frameworks

Citi – Software Development – Job Simulation (Forage), 2026

SKILLS

Business & Analytical: Data Analysis, SQL, Power BI, Tableau, Stakeholder Communication, Problem Solving

Technical Delivery: Full-Stack Development (Next.js, React, Node.js), REST APIs, PostgreSQL/Supabase, Python

Leadership & Collaboration: Cross-Functional Team Leadership, Agile Delivery, Client/Stakeholder Coordination, Product Specs
