SUMMARY

Full Stack Developer and Software Engineer with production experience across web applications, distributed systems, ML pipelines, and blockchain platforms. Proficient in React, Node.js, FastAPI, Python, and PostgreSQL, with a strong foundation in system design, microservices, and CI/CD.

EDUCATION

Vellore Institute of Technology

B.Tech, Computer Science & Engineering (Blockchain) | CGPA: 7.5

2022 – 2026

Turning Point School

Vellore, TN

CBSE Class XII

2020 – 2022

Mayoor School

Ajmer, RJ

CBSE Class X

2018 – 2020

Ajmer, RJ

EXPERIENCE

YES Securities (Yes Bank)

Jan 2026 – Jun 2026

Full Stack Developer Intern

Bengaluru, India

- Building production features for the OMNI trading platform using React, Node.js, and RESTful APIs within Agile/Scrum sprint cycles; engineered backend microservices improving reliability across a high-throughput distributed financial system.
- Led PostgreSQL schema optimization and contributed to CI/CD pipeline improvements; participated in system design discussions on service decomposition, API contracts, and fault-tolerant architecture.

Team Levitate Hyperloop | 🚀

2024 – 2025

Senior Engineer, AI & Software Systems

Vellore, India

- Led end-to-end development and cloud deployment of website, SEO optimized with real-time 3D simulations in Three.js and React; managed full DevOps lifecycle and real-time hardware data pipelines for hyperloop Pod.

PROJECTS

Real-Time Eye-Tracking Inference System

2026 – Present

- Real-time gaze estimation in Python using computer vision and deep learning; implemented Kalman smoothing, temporal voting ensemble, and calibration pipeline for robust webcam-domain inference without model retraining.

Distributed Systems Design Simulator | 🚀

2026

- Full-stack simulator using React (ReactFlow), FastAPI, and WebSockets; modeled failure modes via M/M/1 queueing theory, chaos engineering, and probabilistic fault injection with a live metrics dashboard for real-time system observation.

Hybrid Stock Price Prediction System | 🚀

2026

- Full stack Web App that has Hybrid ML ensemble (LSTM + LightGBM + FinBERT sentiment) for real-time forecasting with automated ETL and feature engineering pipelines. Deployed and hosted frontend and backend services as internship project.

Fertilizer Subsidy Distribution Platform — Blockchain / Web3

2025

- DApp for tamper-proof subsidy allocation via Ethereum smart contracts (Solidity) and Web3.js; React + MetaMask frontend with on-chain redemption logic and event-driven audit trails.

Multi-Source Job Aggregation & Ranking System

2025

- ETL pipeline aggregating multi-source job listings via web scraping; weighted scoring model ranking opportunities by skill match, recency, and domain relevance.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), Java, Solidity

Frontend: React.js, Three.js, ReactFlow, HTML5, CSS3

Backend: Node.js, FastAPI, Express.js, RESTful APIs, WebSocket, Microservices

ML / AI: TensorFlow, Scikit-learn, LSTM, LightGBM, FinBERT/NLP, Computer Vision, ETL Pipelines

Databases: PostgreSQL, MongoDB, Firebase

Blockchain: Ethereum, Solidity, Smart Contracts, Web3.js, DApps, Hyperledger Fabric

Tools & Cloud: Git, GitHub, AWS, Vercel, Figma | **Concepts:** System Design, Distributed Systems, CI/CD, Agile/Scrum, OOP

ACHIEVEMENTS

- Winner — Global Hyperloop Competition (Asia’s First, IIT Madras)**
Secured six awards across engineering, design, and technical presentation, representing VIT Vellore.

2025
- National Semi-Finalist — Flipkart GRiD 7.0**
Advanced to national semi-finals in a highly competitive real-world software engineering challenge.

2025

CERTIFICATIONS

- Data Analytics – Skill Up | GeeksforGeeks**
9-week program, 98% (874/895 modules) — Python, NumPy, Pandas, EDA, SQL, Power BI, Tableau, Excel, Web Scraping; capstone projects in end-to-end data analysis and web scraping integration.

2026
- Blockchain Developer Certification | IBM Career Education**
Blockchain fundamentals, smart contract development, Hyperledger Fabric, and DApp architecture.

2025
- Full Stack Web Development (MERN) | Apna College**
Built and deployed multiple production full-stack web applications end-to-end.

2024
